

*Creating a safer future with intelligent design*

Providing innovative design for over 70 years, our latest range is furthering our continued commitment to maintaining this objective. Culminating in the safest whilst most comfortable products.

We now offer a complete range of uniforms and ancillary items so why not let us provide the "Best Value" single supply solution?

"Arguably the most advanced performance fabric"

#### R1 Coat

- Bootex advanced performance fabric
- Cotton Lined
- Zip-in quilted liner

#### R1 Contrast Coat

- Bootex advanced performance fabric
- Cotton Lined
- Zip-in quilted liner
- Contrast outer design

# Innovation

With a continued commitment to proactively develop our products, to provide the safest and most comfortable products available. Our latest design developments are further evidence of this continuous objective. Our latest innovations are summarised in two specific areas:

**1. Fabric Design** – specifically developing material, including the new **Bootex** fabric that is arguably the most advanced performance fabric available to date. **Dartex Evolution** fabric, developed early January 2005, continues to provide “The Best Value” SCP garment.

**2. Garment Design** – Using the latest testing methods we are able to create the most conspicuous designs. In addition all garments are fully certified to the new revision of the high visibility warning clothing standard, EN471:2003 Class 3.

## Safety Hood

- Bespoke designed hood to overcome blinker effect

## Dartex Evolution Coat

- Specifically designed Dartex fabric
- Our “Best Value” coat

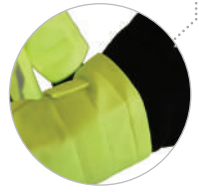

## Marksman Winter Cap

- Fleece lined
- Ear flaps
- Fade resistant outer fabric

## Wind Cuffs

- Fully adjustable

## Bodywarmer

- Summer Coat with underarm and rear vent

- Full length fully sleeved detachable quilted liner

## SCP Sign

#### Patented SCP Sign

- Transparent moulded bracket providing the most secure fixing without any loss of conspicuity
- Specifically dyed protective perimeter strip
- Roundal available with either a Class 2 performance or diamond grade face
- Collapsible or fixed pole
- Rubber handle grip for increased comfort
- Heavy duty rubber stopper for increased pole protection
- Collapsible carry case available

# Quality Assurance

---

In addition to the certification obtained from our official UK testing house, for high visibility warning clothing, we have our own extensive in-house testing facility. Our facility enables us to adopt the relevant **ISO 9002** quality procedure, as well as continuing to develop the most conspicuous and therefore safest garment design.

**Only when we are completely satisfied do we despatch the garments with the ever important 100% waterproof guarantee.**

To reiterate, all School Crossing Patrol garments have been tested by an approved British Testing House for conformity to the latest revision of the High Visibility Warning Clothing Standard **EN471:2003**. With test report certification to the highest class, Class 3.

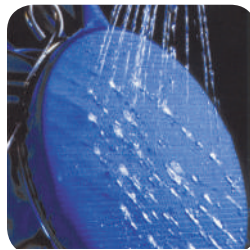

## 1. Shower Chamber Testing

Creating downpour conditions for lengthy periods of time.

## 2. Hydro-Static Testing

Pressure testing material and seams.

## 3. External Treatment

Fluorocarbon treatment has been added which repels water and adds to the waterproofness of the fabric

## 4. Conspicuity Testing

Using state of the art conspicuity testing, enables us to develop the most advanced and therefore safest designs.
