Dear Colleague,

Reduced price FFT Aspire subscription for Academic Year 20/21

The Education People continuously strive to find ways to provide the highest quality services and resources to primary and secondary schools that help you improve the educational outcomes and life chances for the children and young people of Kent.

FFT Aspire is a powerful online data system used by over 13,000 schools, MATs and LAs in England and Wales. It will enable you to more effectively track and analyse your pupils' performance in real-time, supporting formative assessment and intervention to raise progress. It also provides customisable dashboards that enhance school self-evaluation processes and the ability to set individual pupil and aggregated school-level targets. The system will help you to become more informed, save time and take control, so we are delighted to be able to offer you a reduced-price subscription to this service for the coming school year. The discounted preferential rates can mean huge overall savings, as you will see in the table below. Also, to help you further, The Education People are not passing on FFT Aspire's full price increase this year.

The table below shows the subscription costs.

	Buy from us	If you bought from FFT direct
Secondary school	£575 + 40p per pupil	£575 + £1 per pupil

That's a saving of 60p per pupil! By subscribing to FFT Aspire through The Education People your overall savings this year could be considerable. For example, an average size school in Kent with 1000 pupils would cost £975 with The Education People compared to £1575 if you subscribed direct. A huge saving of £600 with us!

To take advantage of this amazing offer please complete and return the form that was included in the email and send it back to us by 15 July 2020 at MIEducation@WiderEH@kent.gov.uk We will then set up your FFT Aspire account for the start of the new academic year. The subscription charge will be processed through your account (previously known as EduKent) with The Education People.

A copy of the letter and form can also be found on Kelsi:

<https://www.kelsi.org.uk/school-management/data-and-reporting/management-information/fft-aspire-support>

For any enquiries about your FFT Aspire renewal please email MIEducation&WiderEH@kent.gov.uk

Yours sincerely
