### Event Summary

Talking Partners@Primary is designed to improve the way children communicate across the curriculum, enabling them to become independent and skilful speakers and listeners and accelerate progress with writing. It is designed to improve the delivery of speech, language and communication in the classroom on a day to day basis by practitioners.

This targeted, time-limited (10 weeks) intervention can be used with small groups or the whole class.

Evaluations indicate that typically pupils will make over 18 months progress in their productive oral language through the delivery of Talking Partners@Primary

It is particularly beneficial for children who have English as an additional language.
