3-4YO Universal
3-4YO Extended
Early Learning for 2 Year Olds
(570 hours)

Important information:
A child can access a maximum of **570 funded hours** within their Free Entitlement funded year, based on when they first become eligible according to their date of birth. This entitlement is calculated across three terms and includes all funded hours accessed during that period, including hours claimed at previous settings.
Changing settings does not reset the child's 570 hour entitlement.
When calculating the appropriate reduction for the family, consider all funded hours already accessed and claimed in previous terms, including those at other settings, together with the child's actual funded hours for the third term.

9 month + Working Entitlement
2YO Working Entitlement
(1140 hours)

Important information:
A child can access a maximum of **1140 funded hours** within their Free Entitlement funded year, based on when they first become eligible according to their date of birth. This entitlement is calculated across three terms and includes all funded hours accessed during that period, including hours claimed at previous settings.
Changing settings does not reset the child's 1140 hour entitlement.
When calculating the appropriate reduction for the family, consider all funded hours already accessed and claimed in previous terms, including those at other settings, together with the child's actual funded hours for the third term.
