All courses are held at our base in Ashford.
This course includes lunch and light refreshments.

Who is it for?
This course is suitable for education based staff and therapists who work with children and young people using Clicker 7. These students will typically have severe and complex communication difficulties and may already be using Augmentative and Alternative Communication (AAC) or Assistive Technology (AT).

What is it about?
Clicker 7 is a software program which supports curriculum recording and promotes literacy development. It enables children and young people to make progress in an easy to navigate and motivating way. It can be used to plan appropriate, personalised resources.

The course will explore how practitioners can:
- Use the features of the program, including how to quickly adapt and edit the different Clicker Sets available.
- Apply the different features to meet specific learners’ needs.
- Navigate the access adaptations available including those for severe and complex students.

What will I get out of this?
- You will have a greater understanding of how the different applications of Clicker can scaffold students’ learning.
- You will have the opportunity to explore how to make your own Clicker Sets which meet individual students’ needs.
- You will gain confidence in using Clicker within the classroom setting to have a positive impact on children’s learning.

Course Overview:
- Attendees will gain confidence and feel empowered to support the needs of children and young people by developing strategies for using Clicker 7 both as an effective literacy tool and to enable access to the curriculum.

Days and Times:
Thursday 20 September 2018
Thursday 31 January 2019
Thursday 25 April 2019
9:30 am to 4:00 pm

Costs:
£40 for KCC and Medway school staff
£100 to out of county staff and independent schools.

How to Book:
Please complete the booking form on the back of this flyer including your Purchase Order Number and send it in to us using the details above.

The images used in this flyer are sourced from available images in Google for the purpose of demonstrating the specific technologies included in this course. For details of the product please visit the supplier’s websites. Our training charges are related to covering costs only and do not generate profit.
