Data shows what percentage of the Early Help episode groups (families) where the District Action was 'Unit' and where the episode was closed as "Outcomes Achieved" in the last 12 months, which had a subsequent Early Help Episode or CSWS Referral in the subsequent 3 months. However, the data is delayed by three months to allow for subsequent Episodes/Referrals to come and so we are unable to provide data more recently than December 2020.

Based on families verified onto Phase 2 of the Troubled Families Programme with an intervention between January 2019 and January 2021

Headline criteria are calculated using the Kent Troubled Families Outcome Plan (which includes national criteria set by the Ministry of Housing, Communities & Local Government). The MHCLG announced that as of April 2020, Local Authority's could no longer count a referral to EH or CSWS as a headline problem present within the family. As a result, we are no longer able to use Outcomes 3.1, 3.3 and 3.4 to identify families under Headline 3: Children Needing Help.

The data above are based on headline criteria met at the original verification stage only, subsequent assessment and reviews are likely to reveal changes or additional criteria.

Children Missing Education

Children registered as a child missing education

Snapshot Date	Number of children (excl. dormant)	Number of dormant cases
31/08/2020*	511	176
31/08/2019	326	161
31/08/2018	347	52

Figures based on all known children within educational year groups R (Reception) to 11 registered as a child missing education on the given date in each of the corresponding years illustrated. Dormant cases represent the number of children where all avenues available to the local authority have been pursued. Cases are risk assessed and remain open, however, the case is filed as 'dormant' and subsequently reviewed monthly until the child is located or is no longer of statutory school age.

CME data recording transferred to the 'Synergy' recording system in 2018. The previous recording system (Impulse) did not have a functional data recording field to flag cases as 'dormant', whereas, the 'Synergy' recording system does have this functionality. The 52 dormant cases illustrated as at 31/08/2018 reflects data collated from 'Synergy' only, not a combined figure from both 'Impulse' and 'Synergy' recording systems, thus should be treated with caution.

\*Please note that during the period March 2020 to August 2020, due to COVID restrictions, associated services which would enable the Local Authority to close a case more expediently had been suspended.
