

Kent County Council and the [Education Endowment Foundation \(EEF\)](#) are working in partnership to bring evidence-based school improvement programmes and training into Kent. They have appointed the [Institute for Employment Studies \(IES\)](#), an independent not-for-profit research organisation, to carry out research and evaluation as part of the [EEFective Kent project](#).

What is the purpose of this evaluation?

The evaluation aims to understand if the project:

- has helped to increase the uptake of evidence-based programmes in Kent schools.
- has supported collaborative working between schools.

Learning and insights from the evaluation have already been used to help develop the project and will inform future initiatives.

The final part of the evaluation is an **online survey**.

All schools in Kent are being invited to take part in a short survey. It will take **10-15 minutes** to complete and will give you the chance to:

- Share your expertise and experience of deciding on approaches to improve pupil progress and providing professional learning for staff.
- Have a say about partnership working in the county.
- Have the chance to win a cash prize for your school – all responding schools will be entered into a prize draw and five will be awarded a £200 ‘thank you’.
- Contribute to efforts to improve educational outcomes in Kent.

Please do take the time to complete the survey using the links below:
