Who is this course for?
This course will teach you technical skills at your own pace. A workshop format in the afternoon gives you time to practise adapting and making your own resources.
This course would be particularly useful for teachers, therapists or parents who are supporting a child or young person who is using the Proloquo2Go app for voice output communication.

What is it about?
Proloquo2Go is an app used to enable students to communicate with symbols and text.
This one day course will explore a range of relevant features within this app. These are fun as well as being able to promote progression and develop students skills and communication levels.
This app can be used for individuals or small groups of students with additional needs, so that they can join in with a wider range of curriculum activities and social opportunities.

What will I get out of this?
At the end of the course you will:
- Increase your confidence at using this app to make changes to a pre made vocabulary package.
- Increase your awareness of the published online resources and paper based materials that can be used as additional resources.
- Improve your understanding of how to make resources that support learning and communication.
- Please bring a USB or Memory Stick with you on the day.

Course Overview:
- Develop knowledge and confidence of how to personalise a communication package with new words, photos and phrases.
- Identify underlying skills that students need to develop to attend, navigate and improve independent use of a communication system.
- Increase awareness of the full range of functions within the app that a student or group could use to support the progression of speaking and listening skills in all communication settings.

Costs:
Free to anyone supporting a child, young person or adult on the Kent and Medway CAT Caseload.

How to Book:
Please complete the booking form on the back of this flyer and send it in to us using the details above.

Light refreshments only are provided.

Dates and Times:
Thursday 14 February 2019
Thursday 27 June 2019
9:30 am to 3:30 pm
# Kent and Medway Communication and Assistive Technology Service (KM CAT)
