

Education and Young People's Services

Young People Not in Education, Employment or Training (NEET)

Monthly Report - September

Produced by: Management Information Unit, KCC

Publication Date: 14th October 2014

The figures are based on the monthly submission made to DfE via NCCIS for Kent County Council .
Academic age is the age of the young person on 31st August (i.e.: prior to the start of the academic year).
The figures include all 16 -18 year olds based on academic age with a Kent County Council area postcode
as their primary address.

Executive Summary

Summary:

Context - Transition

September is always the time of the year that the NEET and Not Knowns figures are highest, as it takes time to collect and import students' new activity into the system at the start of the academic year.

However, this month, whilst figures are higher than last month (as expected) both the NEET and the Not Known figures are significantly lower than the same month last year. Much of this improvement is due to the implementation of new streamlined, cross-service, automated processes and systems.

NEETs as a percentage of the 16-18 academic age group (Year 12, 13 and 14)

July 2013	6.73	July 2014	6.33
August 2013	7.08	August 2014	6.36
September 2013	14.79	September 2014	8.06

Not Knowns as a percentage of the 16-18 academic age group (Year 12, 13 and 14)

July 2013	11.65	July 2014	11.93
August 2013	11.70	August 2013	11.97
September 2013	77.67	September 2014	58.70

Despite having being in a period of transition, NEET performance by KCC in the past three months has been better than that of last year, and for Not Knowns has been in line with or better than that of last year. All districts have shown an improvement in both sets of figures this month. This provides a good platform to considerably reduce NEETs this academic year.

Progress - NEETs

Over the last few months there has been improved data accuracy in recording vulnerable learners. The apparent increase in unknowns for the YOT cohort is due to the high proportion of young people involved with youth justice who are educated at FE colleges. The data for this group has not yet been transferred onto the IYSS database.

The KIAS Re-engage initiative has so far supported over 200 young people. 55 young people who were previously within the 16-18 academic age NEET cohort are currently participating in this support programme. Also participating in Re-engage are NEET young people aged 19+ with special education needs and young people leaving education this summer who are without a September Guarantee and 'at risk of NEET'. Re-engage is a 'roll on, roll off' programme and it is anticipated that many current participants will be joining further education courses in September and this will be reflected in statistics produced later this term.

The focus for the September Re-engage drive are those young people who have been NEET for longer than 26 weeks and young parents and maintaining a focus on young people known to the YOT and Probation and young people leaving care.

Progress - Tracking

An internal LEAN review of the tracking process for the collection of data from schools and colleges has had a significant impact. Streamlined data collection processes from schools and colleges, combined with data in automated formats about apprenticeships, now provide electronic, standardised data across the county instead of relying on a labour intensive district data collection model. It is future proof as it is consistent and doesn't rely on human interpretation and stability of the workforce to ensure validity.

An internal LEAN review of the processes needed to track young people who are NEET, in employment or Not Known has been undertaken. This has streamlined the telephone tracking process and it is expected that the number of telephone tracking calls that can be made in a day should increase by almost 20 in the coming months.

Executive Summary cont'd

Planned Activity

The Tracking Board that oversaw the operational transition of tracking will change to a more strategic group, run at Head of Service level with a holistic brief that will focus on:

- Interpreting the tracking data to improve post-16 participation;
- Improving cross-service working and facilitating integration;
- Continuous improvement and efficiency;
- Creating/commissioning pathways that lead to sustained participation, not NEET churn.

The action plan for the Autumn Activity Survey and annual benchmarking of the whole cohort (52,000 young people) will be implemented by MIU, Skills and Employability Service, SEND and Preventative Services. This work will draw on the efficiencies that have been developed over the past four months and the improved relationships with Kent providers and neighbouring authorities.
