Editing data

The ‘edit’ facility in COLLECT is made available for all COLLECT users, this includes ALL schools regardless of type. If small amendments are required to a schools return, it is acceptable to make the amendment directly on the return within COLLECT instead of providing a resubmission. However, from an audit/inspection viewpoint it is important that any amendments are also reflected on the school's MIS, by doing so it will also ensure that some amendments will now be required for the same record on each termly census.

Eg Local authority maintained schools should consult with their local authority regarding editing of data within COLLECT and agree local responsibilities and/or processes for amending data directly in COLLECT. Audit reports will be available to both schools and local authorities in COLLECT to provide an audit trail of any data amendments.

Please note: Not all school census fields are editable. Anything that you cannot change on COLLECT will need updating in the MIS and the file re-running.
COLLECT screen functionality

Before viewing the return it is useful to understand some of the basic controls and screen operations.

**Do not use the browser buttons!** When in the data collection, unpredictable behaviour may be experienced if you use the back/forward buttons on your web browser’s toolbar.

Changes to data in pupil records

You can change any information about the pupil in the same way as changing UPN. For example language, date of birth or enrolment status.

You need to locate the part of the return with the incorrect information and then click ‘edit’ to change it, either by overwriting or using a drop down menu of options.
Deleting a pupil from the return

Sometimes you may need to completely remove a pupil from the return if they have been pulled through in error.

The most common occurrence of this is off roll pupils under 4 where we do not collect any historic records eg attendance/exclusion/post16 data. These pupils will generate queries 1925 or in the case of special schools query1926.

On checking the records if you are confident this is the case and the pupil needs removing please follow these steps.

1) Locate the pupil on the return please use the UPN search where possible to ensure the correct pupil is selected.

2) Double check the correct pupil is highlighted in blue and the text is in bold and click the ‘Delete’ button.

3) You then need to confirm this action or cancel if done in error.

Please note – Unlike a change to the return deleting a pupil is irreversible without a re-load of data. Please ensure you have highlighted the correct child before removing.
Removing a duplicate record

The DfE will run extra checks on your data prior to authorising such as looking at duplicate records i.e. FSM periods or Exclusions. We will contact you regarding these and ask that you update COLLECT to only show one. Using duplicate exclusions as an example please follow the following steps.

1) Locate the pupil using the ‘View All’ buttons and filter bar. Once correct pupil highlighted, click on Pupil on Roll ‘View Termly Exclusions ‘View All’

2) You will see the exclusions listed here. Please highlight the one you wish to remove by clicking on it and then click the delete button.

3) You then need to confirm this action by clicking ‘Yes’
